# Model Interchange Special Interest Group

- **Highlights from this Meeting:**

    – Discussed user experiences with modeling interoperability.

        - General need for tooling to better support "multi-module" models.

        - Observation that tool-specific model interchange solutions still seem to work better then standards-based solutions for large-scale models.

    – Presentations:

        - Interoperability and Standardization, Ed Seidewittz, nMeta LLC (misig/2017-03-01)

        - Simplifying MOF-Based Metamodeling, Nicolas Rouquettte, JPL/CalTech (misig/2017-03-02)

- **Deliverables from this Meeting:**
  - None
- **Future Deliverables (In-Process):**
  - None
- **Liaisons**
  - None
- **Agenda Items for the Next Meeting:**
  - To be determined.
